

## ISCA Coaches - Teleseminar Interview

Hi everyone, my name is Colleen Roberts and I am the creator and founder of [www.colleenscoachingcorner.com](http://www.colleenscoachingcorner.com).

Over the next few weeks I will be interviewing and recording other Inspired Spirit Coaching Academy Coaches and will be very lucky to also interview Sandy Forster head trainer and creator of the academy. This is my second interview

This morning I am conducting a very special interview with:

Name: **Angela Thie (pronounced like the letter T)**

Business: **EYWA Coaching - Evolve Yourself with Angela**

Websites: [www.EYWACoaching.com](http://www.EYWACoaching.com) +  
[www.HappyImmigration.com](http://www.HappyImmigration.com)

Hi Angela welcome to the call.

*Angela responds*

Please tell me what inspired you to create your business and website or how it came to be?

*Well, Colleen, all my life I was helping people, was coaching them, was giving intuitive readings, was being creative as a qualified Jewellery Designer and Quilter but all this was compartmentalised in my life.*

*Over the years I developed a strong desire for the opportunity to combine all my skills and passions into one. And then the opportunity to become an Inspired Spirit Coach came to me and I knew this is what I was asking for. That's how EYWA Coaching got started.*

What made you become involved in your chosen field or choose what you are doing? What is your story behind it?

*My chosen field is Migration Coaching, where I work with global citizen who wish to relocate and support them through the emotional process of emigration and immigration. I myself have migrated in 2005 with my family from Germany to NZ and in hindsight I realise that we have applied quite a lot of Universal Laws to manifest a happy outcome.*

*The prognosis from professionals wasn't good for us but we made it happen by doing a lot of things right energetically.*

## ISCA Coaches - Teleseminar Interview

*The dynamics of migration are globally quite similar to each other, I am not talking about the technical processes of immigration laws but the emotional ups and downs and the utilisation of the Universal Laws and that's where I come in and coach people through. So yes, there is a personal story behind my niche and the belief that if one has a strong dream it is a sign from the Universe for us saying: "This is meant to be for you."*

Angela can you please describe your ideal clients, customers or how the information you have learnt can benefit your clients or other people?

*My ideal client is someone who wants to immigrate in to the country of their dreams and who wants to be supported through this emotional journey while being open to use metaphysical processes so they can actually speed up this process. It is amazing what can be achieved when combining action with a changed way of thinking - don't expect anything less than miracles! 😊*

Wow!!! What was your ultimate goal when you decided to open your business and has that goal changed?

*My ultimate goal was to help as many people as possible to become really excited about all the possibilities they have in their lives. To get them to the point that they dare living their dreams so they can live a happy life.*

What community events or charities do you support or sponsor or would like to?

*Currently I am focusing very much on myself and my business but I have plans for later where I want to set up free courses for young people/parents where they can learn to buy and cook healthy food while living on a budget.*

*There is a lot of knowledge gone by simply one or two generations not cooking properly for their families and these kids raise now their own children with fast food and junk food. Just observe some toddlers in a supermarket - they nag their mums for a chippy bag but not for a banana. They have no idea what it is!*

You are so right Angela

## ISCA Coaches - Teleseminar Interview

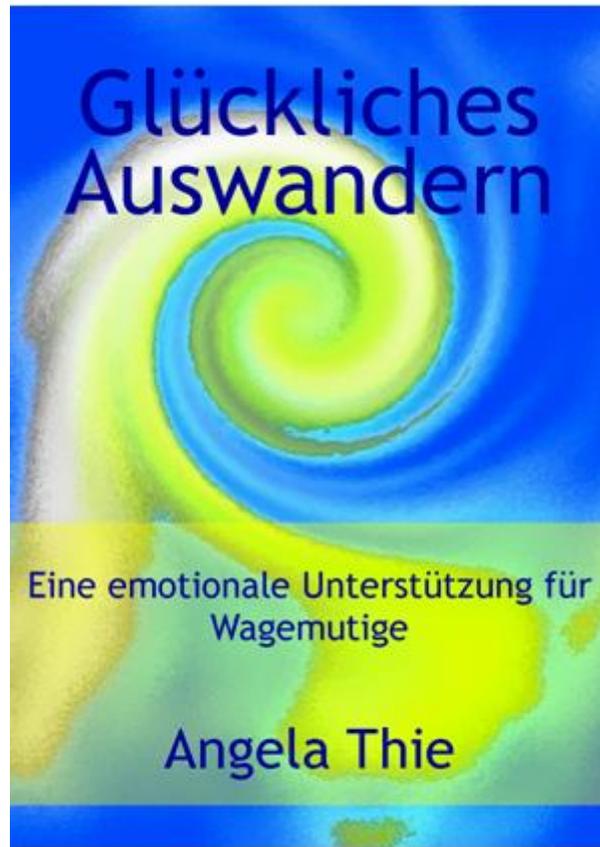

What are your accomplishments or do you have anything that you would like to promote?

*I am still quite proud of organising the shift of our 5 people household from Germany to NZ all by myself, because my husband was already in NZ.*

*All this experience and my focus on my niche evolved in to writing a book about the energetic process of Emigration and its emotional work one can do.*

*It just got launched a couple of weeks ago. I am now translating it into English. I have written it in German because there are so many Germans who want to leave Germany and are looking for a better life somewhere else.*

*The second book will cover the Immigration, which is a totally different story again. Most people think once they have arrived and received their permits that that's it! But this is not quite true and most people who go back to their country of origin are based on not knowing about the dynamics of immigration and that one can be hit by a low even after two years.*

*There is lot in the pipeline currently and I am really excited. So my book "Happy Emigration" will be available in English soon next to its German version which is already available in my online shop. When purchasing my books, people will receive as well the audio book version. This is very important as people take information in, in different ways and they can hear that there is a real person behind the book. Which is me!!! 😊*

That is amazing Angela and truly inspiring. We have all grown so much since becoming involved with the [Inspired Spirit Coaching Academy](#)
